

# INDUSTRIAL VISIT

02.12.2023 to 04.12.2023

@ Manipal University campus, Mangalore  
District, Karnataka.

Embarking on an educational journey, the Department of Noinadal, encompassing microbiology, at Nandha Siddha Medical College organized an enlightening trip to sightseeing destinations in Mangalore district, Karnataka. Day one commenced with an immersive experience at the Manipal University campus. Students delved into the university's rich history, growth, diverse course offerings, and collaborative endeavors through an engaging destination show. Next, they ventured into the centralized library, gaining insights into its vast collection and operational guidelines. The Manipal Museum of Anatomy and Pathology, Asia's largest, unveiled an array of over 3000 specimens, fostering a comprehensive understanding of normal and abnormal anatomical structures. At Melaka Manipal Medical College's microbiology laboratory, students engaged with a collection of microbiology specimens and models, guided by Associate Dean and Professor Dr. Shobha K L MBBS, MD (Microbiology), ably assisted by Research Associate Gowrish Rao S.
