

## DEPARTMENT ACTIVITY OF UDAL THATHUVAM (PHYSIOLOGY)

Department of Udal Thathuvam arranged an industrial visit to BSMS I year students. They visited pharmaceutical industry SKM on 02.08.2023 Saminathapuram, Erode.

This visit engaged the students in learning about the standard drug purification and preparation methods of the medicine, which included (Raw drug storage unit, Purification, and Processing until, Quality control lab, Research and development unit) packing and labelling unit. Students gained more practical knowledge through this visitation.

Students gained detailed knowledge about how to purify raw drugs (plants leaf, root, bark, flower) and metal drugs. And learn how to prepare parpam, chooranam, chendhooram, oil in detail manner. Also received knowledge about packaging of prepared medicine in proper way.
